

TAYLOR TALE IS MOSTLY MEMORY LOSS

Man Charged With Stealing
Automobile Saw Machine
on the Street

CANNOT RECALL
LATE NIGHT RAPS

He is Held to Answer in Super-
ior Court—\$1000 Bond
Not Yet Given

Clyde Taylor doesn't remember that he awakened Julius Reinhaus about 2:30 o'clock Thursday morning and asked for the loan of his automobile crank. He doesn't remember that he went to Judge Towner's house a few minutes afterward and asked Mrs. Towner for the loan of a crank to start a machine. He does remember that he went to the home of his brother some time during the night and came out and right there in front of the house an automobile was standing all by itself. How it got there is one of the matters that are oblivion to Taylor.

This morning Taylor's preliminary hearing was held before Justice of the Peace Smithwick, and at the end of it he was bound over for trial in the superior court on the charge of grand larceny, his bail being fixed at \$500.

District Attorney Davis examined three witnesses, and then Taylor made a statement in his own behalf.

Judge J. W. Towner told of a man's visit at the Towner home in his attempt to borrow an automobile crank. The man said Mr. Reinhaus had told him that Judge Towner might have a crank that would fit the machine. Later that morning the judge was aroused by Officer Murray, who told the judge that his automobile was standing beside the curb a block away, where it had been rolled after it was stolen from his garage. The judge said that several small tools are missing from his shop, among them pliers, nippers and a bicycle monkey wrench.

Julius Reinhaus said that about 2:30 Thursday morning he was awakened by a sister who said Clyde Taylor was outside wanting to borrow a crank. Reinhaus went out the back door and met Taylor, whom he knew. Taylor said he and some friends wanted to get back to Los Angeles but had lost the crank to their machine. Reinhaus asked Taylor what kind of a machine they had, and Taylor said it was a Ford, which didn't help out his story with Reinhaus, he knowing the Ford has its crank attached. So he bid Taylor good-night and shut the door.

Constable Jackson, who was told of Taylor's visit at the Reinhaus home directly after Taylor left the place, testified as to Taylor's arrest.

Taylor then made a statement in his own behalf. He had been in Anaheim. He went over there with two other friends. He did not know just when they got back. He remembered passing Ford's place on the Anaheim road coming home, and the next he remembered he woke up in Birch Park. He tried to ride a bicycle to town to get some tobacco for himself and another man who was standing at the Park, the name of the man being unknown to Taylor. He went to Perry Taylor's house and got some coffee. When he came out of Perry's house the automobile stood there and no one in sight. Taylor spent the rest of the night on a bench at Birch Park.

When Randolph refused to do this, a mob was organized and threatened to lynch him. The mayor ordered the man arrested and he is under a heavy guard to prevent him from being killed.

Meantime no one is able to awaken the girl.

WOMAN'S BREAST FOR CANCER

Any Lump in Woman's Breast is Cancer

—A new book of the most wonderful discoveries on the cure of cancer ever written has been recently published by Dr. S. R. Chamley, the noted cancer specialist, who has for many years had offices at 747 South Main street, Los Angeles, Cal., and has effected thousands of cures of cancers that have been pronounced incurable by other physicians. He successfully proves his astounding statement that "Any lump in a woman's breast is cancer" in this book. He has so much confidence in his ability to cure cancer that he offers \$1000 if he fails to cure any cancer he treats before it poisons the deep glands. He has devoted almost the whole of his professional life—nearly forty years—to this specialty and has reduced it to a science that has not been approached by any other physician. He performs no operations with the knife and his treatments are painless.

The book and his cures are creating a sensation among medical men who recommend him as being strictly reliable. The reader may save a life by sending this to some one with cancer.

Obituary

Mrs. W. L. G. Haskins was born in England, coming to this country with her parents when a child of six years. A pioneer's daughter, she was also a pioneer's wife, coming to new lands and bravely overcoming all the hardships pioneers must meet. In her father's family and in her own family she faithfully adhered to the principles and practice of Christian life, always interested in her church, the Unitarian. Besides her church affiliation, Mrs. Haskins was a member of the W. R. C. of Santa Ana.

She lived in the East up to seventeen years ago, when with their family Mr. and Mrs. Haskins came to California. Had she lived to March 17, Mrs. Haskins would have been 66 years of age. Not yet having reached the allotted time of man, she had never outgrown her interest in life.

In the family circle she was the most important factor. Everything centered around "Mother," and her going will create a great void as days pass on. Mrs. Haskins lived a retired life, much absorbed in the training of her children and the care of her home. She was faithful and true in every undertaking, and to all with whom she was associated. Her husband and children and many friends unite in sorrowing for the loss of one whose acts they could never criticize, and whose way was always right. In memories of her there will be nothing more prominent than that sweet welcoming smile with which she greeted each member of the family upon returning home.

Mr. Haskins, the bereaved husband, Miss Florence Haskins, at home, Mrs. D. D. Fields, Miss Mollie E. Haskins, who is at present visiting in Raleigh, N. C., and Mr. N. D. Haskins, at home, constitute the immediate family.

The funeral services were held this afternoon at the Unitarian church, conducted by Rev. Watry. She was laid to rest in the Santa Ana cemetery.

A Busy Boy

The diminutive office boy had worked hard on a "salary" of \$3 a week. He was a subdued little chap, faithful and quiet. Finally, however, he plucked up courage enough to ask for an increase. A writer in the Kansas City Star tells the tale.

"How much more would you like?" inquired his employer.

"Well," answered the lad, "I don't think that \$2 more a week would be too much."

"You are a rather small boy to be earning \$5 a week."

"I suppose I am," he replied. "I know I'm small for my age, but to tell the truth, since I've worked here I've been so busy I haven't had time to grow."

He got the "raise."

HUNTINGTON BEACH

MATHEMATICS WORTH WHILE WITH MARSHAL

Stopping to Figure Things Out Brings Out Some Very Interesting Points

Huntington Beach News:—In fixing fees for marshal Wright in his capacity as poundmaster, the city trustees at their meeting Monday night wrestled with a big financial problem. They named two and one half dollars as the fee for burying a dead dog.

While the city clerk was reading the ordinance the marshal sat in a corner of the council chamber with a far away look on his handsome face. He was doing mathematical stunts. He had a pencil in his hand and a wrinkle in his brow. He also wore a worried look. Occasionally during the reading of the ordinance he groaned. At the completion of the reading, the marshal arose and began to ask questions of the trustees. He wanted to know how long his forty dollars a month salary would cover deficits arising from receiving two and one-half dollars to bury a cow and expending seven dollars to pay grave diggers to place her body in the cold, cold ground. This conundrum brought a look of deep depression to the face of the chairman of the Board of Trustees. He gave the marshal a glance full of sympathy and kindly commiseration.

The marshal dug up another interrogation point. He asked who was to furnish the ground wherein the tired bones of the dead animals might be laid. He, himself, had no grounds, except grounds of complaint. As this question oscillated in the atmosphere, Trustee Helme looked dubiously at City Attorney Blodgett. The city attorney felt nervously for his mustache, forgetting in his embarrassment that it was only two days old. Trustee Stewart reminded the marshal that the latter was to sell dog tags which would cost five cents each at fifteen cents bringing a net profit for him. Marshal Wright again pulled out his pencil and figured—"if a live dog," he thought, "profits me ten cents, and a dead dog loses me forty cents, it is plain that each dog deal will make me feel like thirty cents."

Here the News man prayed to his muse with this result:
When tagless dogs sometimes I kill
To bury them, who pays the bill?
I figure well, yet I infer
I lose on each cow I inter—
To bury horses, cash I give;
'Tis plain, 'tis best to let them live.
Further consideration of this grave question was deferred until the next meeting of the trustees.

GARDEN GROVE

THE AULD LANG SYNE CLUB MEETS

Members Were Schoolmates at Garden Grove—Surprise Party Wednesday

GARDEN GROVE, March 5.—The Auld Lang Syne Club whose members are the old time attendants of the Garden Grove school met at the home of Miss Bertha Robinson Thursday afternoon of March 4th.

The members of this club through change of name and change of property have become quite scattered but all those who live near or within writing distance are notified and as many as can meet with those with whom friendship was formed in childhood days. Sixteen members of the club and four other old time residents were present at the meeting. They were Mrs. Rose Clark Johnston of Rivera, Mrs. Mamie Hough Vertrees of Los Angeles, Mrs. George Hough Fitch of Los Angeles, Mrs. Rose Metzgar Hill of Los Angeles, Mrs. Harriet Walling Nash of Hanford, Mrs. Emma King Wassum of Santa Ana, Mrs. Effie King Kelly of El Modena, Miss Percy Head of Santa Ana, Mrs. Laura Harris Robinson of Santa Ana, Mrs. Mabel Townsend Lowell of Santa Ana, Mrs. Lillie Sandford Harrison, Mrs. Stella Woodman Harper, Mrs. Lida Eton Mitchell, Mrs. Mina Robinson Newsom, Mrs. Sarah Mitchell Newsom and Miss Bertha Robinson all of Garden Grove.

Among those invited were Mrs. Lane and Mrs. McKelvey of Fullerton, Mrs. Eton Stoop of Oregon and Mr. and Mrs. Richard Robinson, father and mother of the hostess. One of the members, Mrs. Agnes Ware Stanley being now in Florida, pencils and paper were passed to each and a note written to her and all placed in one envelope to be forwarded to her next day as a reminder that though absent she was not forgotten. The merry laughter and noisy chatter was equal to the clamorous sounds of old school days. We had so much to ask, so much to answer in regard to absent members that the only time one felt she could refrain was when the delicious refreshments, consisting of chicken salad, bread and butter, olives, piccalilli, lemon and berry pie, coffee and cream were being served by the hostess.

It was arranged that the next meeting should be held on April 22nd at the home of Miss Percy Head at Santa Ana. The meeting adjourned promptly at 5:30 p. m. Farewells were said and all departed for their homes, feeling that it was one of the most delightful afternoons spent in many days.

MOTT'S WING IS SWIFT AND SURE

That the fans of the Angel City think that Mott is one of the best third sackers in the business, is shown by what the Times says about Mott's playing in a game with Saint Vincent college Thursday afternoon. The following is what they have to say:
"The feature of the game was the pretty work of Mott at third base, whose stopping of grounders and throwing to first was sensational. A season with the Fresno outlaw team has improved him, if anything, over his previous Coast League form, and he will certainly show something good everything; is very active on his feet, before the season ends. He blocks and is a sure, swift shot to first base."

OUR NEIGHBORS

And you will generally find that they know of more good, intelligent people, those of good sense and discernment in your vicinity who have been cured by Dr. Pierce's World-famed Family Medicines than by all other proprietary medicines. They have been making these cures right along for over forty years and altogether likely you will easily find people all about you who will be only too glad to say a good word for them. By a little inquiry you will no doubt find some of these cured and grateful cases in your immediate neighborhood, for they are to be met with practically EVERYWHERE. They are Dr. Pierce's best advertisements. Seek their advice if you are a poor despondent over-burdened broken down, weak, or pain-wracked woman, suffering from some derangement or weakness incident to your sex.

THEY MUST KNOW

HAVE IT HERE WITH CLIMATE

Blizzard Sufferers Need a Special Photograph to Show Them What's What

(By D. W. McDannald)

BERRYDALE, March 5.—I think it would be a wise idea for the "Fathers" when they have inauguration ceremonies on hand again, to temporarily move the seat of government to Southern California, where the climate is ideal in winter as well as in summer. If some enterprising genius could invent an apparatus for photographing climate, couldn't we show those eastern bound cousins a contrast? March 4 with us was an ideal day, perfect in every detail from 12 to 12; no thought or suggestion of a blizzard. I saw ladies on the streets of Santa Ana wearing facade dresses and airy summer goods, and small boys running barefoot. Men with faces all aglow, in the khaki suits, rushing up to the soda fountains with a zest that called to mind the scenes at a mid-summer picnic, and yet, without the aid of some power not so elastic as man's veracity, how are we going to picture the contrast. The dispatches tell us that thousands stood in line for several hours, suffering the torments of the damned—climate—at the inauguration ceremonies, simply for the pleasure of being able to say they had "seen the thing done."

It is not enough to say there is but one Southern California, but it is equally terse to say there is but one Orange county. During the present winter every other county in the state has suffered more or less damage from high tides, high winds or high water. With the exception of a few insignificant scratches, Orange

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broad-leaf and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them Remedies of Known Composition.

By this bold step Dr. Pierce has shown that he is not afraid to subject them to the closest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomachs, biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native medicinal plants of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the reproductive functions, correcting displacements, a prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

county, "the little gem," has emerged from the scrimmage without having either eye in a sling. Some time the information will reach those blizzard breasters in the far East that we have a winter climate that dovetails in with summer like the framework of a cabinet organ, and then watch them come. And don't you think it is really good of us to so ungrudgingly share this blessing with people we never saw before? We are as full of generous impulses as a hen fruit is of cackle, or the transformation of an old time joke, and if a stranger smite me on one cheek, I'll give him the other, for I am liberally possessed of "cheek."

Last week the Register suggested an idea, if it would only meet with the throbbing impulse of action, would advertise the beauties of our incomparable climate as it could be done in no other way. The idea is for everyone to write a truthful letter—no others need apply—to the old home paper. I remember some years ago I wrote a message of this kind to the Courier-Journal, and in a very short time the little investment began to bear fruit, and the second crop was better than the first. My mail box held the inquiries for a while, and then the mail boy took to stacking the letters up against the fence—a la mode a country sack of potatoes—the biggest ones on top. Then he became insulting; he told me one day if I was going to continue to be a continental fool I could cart off my own letters, so that broke into a scheme which promised great revenue for the government in the way of postage.

I got in touch with people in all imaginary conditions of life. From the ague cursed swamps of Alabama to the 40 below zero regions of Minnesota. I recall one letter, I suppose because it so nearly resembled my own condition of financial wisdom. The writer asked me to invest \$85, the accumulations of five years, of himself and wife in a New England textile factory, but when I told him the average price of land was \$500 an acre, and that his meager savings would buy a patch no bigger than a spring pullet could paw over in the forenoon, he cut me like a buzz saw. That is the sure method of advertising, and if they believe you—as they did me—you will have correspondence to burn.

Del Brady is preparing to put in 1200 feet of 12 inch pipe, which will increase the products from his farm 12 per cent.

Jim and "Mac" have a very sick horse. It has struggled manfully against the grim reaper for almost a week, and if the "boss" doctor man don't come too often, it may possibly pull through.

D. E. Cozad has just completed setting out a 20 acre gum grove. David got a hunch that 20 acres of eucalyptus was better than 20 acres of sunflowers, not that they would get much bigger, but would make better furniture, so he got busy. Gum trees are no experiment in this locality, as the largest tract in the country adjoins Mr. Cozad's grove, and is still yielding hundreds of cords annually of the best fuel this side of the coal pit.

THE DIRECT PRIMARY AGAIN

The direct primary bill having passed the senate with the provision for an advisory vote on United States senator, the fight is now transferred to the assembly. The "old warhorses" wish to amend it so as to take the vote on United States senator by districts instead of by the state at large, as is provided by the bill passed by the senate. It was by this vote by districts that "gumshoe" Bill Stone succeeded in defeating Gov. Folk in Missouri, and that in the face of a large popular majority for Folk.

Do we want this kind of a primary? In other words do we want a direct or an indirect primary law? The friends of Senator Flint are said to be especially anxious to have an indirect rather than a direct primary, fearing the senator would not receive the endorsement of the people in case of a popular vote.

But this assumes that there must be something wrong either with Senator Flint or the people, and as the senator's friends would scarcely admit there is anything wrong with him, they must lack confidence in the people. But granted for argument's sake that such is the case, is it supposable that Senator Flint or any other self respecting citizen would care to serve an unwilling people? Hardly, and in intimating any such thing his "friends" are doing him a great injustice.

It is true that the people have had their policies done for them so long, and are so unused to independent action themselves, that they may make some mistakes until they "get their hands in," so to speak, but the danger is not grave enough to cause worry by any except "de gang." By all means give us the bill as it stands and let the voters have a chance at United States senator as well as the balance.

THE OPTIMISTIC CLUB OF AMERICA

In response to a letter from the president of the Optimistic Club of America, President Taft, among other things says: "The man who does not hope for better things and does not believe better things can be brought about, is not the man likely to bring better things about. Constant criticism and constant pessimism are productive of paralysis and stagnation." He then proceeds to advise people not to read editorials which are pessimistic and hypercritical, for "nothing will take out of a man the enthusiasm necessary for success as the reading of such matter."

Who laid the first Atlantic cable? Who built the first railroad to the Pacific coast? The men who had faith it could be done, or those who did not? The former of course—the optimist and not the pessimist. The optimism referred to is not that of the gambler who takes a blind chance, but of the reasoner who has faith in men and means and proceeds with caution, but proceeds all the same.

For thousands of years the world was pessimistic. Such was the ruling spirit both of its philosophy and religion. But little hope of happiness or relief was held out by either. Men were possessed with gloomy forebodings and had but little enthusiasm except for war, which was about all that offered inducements to aspiring genius. When a certain one had conquered the world he wept that there were no other worlds to conquer, esteeming this the only object and diversion of life. Pessimism and its twin brother skepticism, prevailed in all the walks of life, with the result that progress lagged for lack of faith in the benevolent tendencies of creation. But there came to them one who said, "Oh ye of little faith," and straightway they crucified him. But he had brought a message that meant life and progress, and today it is stronger than ever.

To the reflecting mind of this present age he is the one bright figure of that gloomy time, and his form stands boldly outlined against the dark background of all the pessimism that then ruled the world. It is the optimism of the faith he had taught us that has transformed the nations which have received his doctrine and made them the masters of the world.

No wonder it is said that faith can remove mountains. It is doing it every day—mountains of difficulty, mountains of trouble, mountains of

disease, sin and iniquity. Socially it is driving out the saloon, the race track gambler and the red light district, the corrupt politician—slowly it is true, but surely.

The men who do things are the men who believe, without being bolstered up by others, that things can be done. They are the builders of our railroads, our harbors, our ships, our towns and other great enterprises. Men of faith, the salt of the earth, without whom society would go to pieces and return to barbarism. The optimism of faith is progressive. Business is founded on faith, only we call it credit or public confidence. When it fails then comes a panic, a crash, ruin.

The principle of faith is a natural ally of every good enterprise, and it is faith that makes the optimist, in whom hope and effort go hand in hand, laughing at impossibilities and saying, "it shall be done."

All boosters are optimists, and all optimists are boosters. Long may they live and much joy may they have.

DIRECT PRIMARY

The great majority of the people of California—of all parties—desire the passage of the Wright-Stanton direct primary bill with its provision giving them a voice in the election of United States senators. The majority's wish should be respected.—San Diego Union.

Having a direct primary law, if the people do not control their own affairs in the matter of government, they certainly cannot expect angels to come down to do it for them. The first and last step toward the reign of machines and bosses is taken by the best citizens when they fail to dictate by whom and by what policies they shall be governed.—Pasadena Star.

The friends of the Wright-Stanton direct primary bill have apparently done the most effective thing that could be done to insure its enactment. They have got the Sacramento Union, double-leaded, 14-point editorial. The bill is as good as signed.—Chico Enterprise.

SOMETHING ABOUT TUBERCULOSIS CURE

Circular No. 11 of the California Association for the Study and Prevention of Tuberculosis is as follows: Tuberculosis is a communicable disease.

Tuberculosis is a preventable disease.

Tuberculosis is a curable disease. Tuberculosis is communicated by means of the tubercle bacilli, tiny vegetable micro-organisms which are thrown off from tubercular ulcerating surfaces, most frequently from the lungs in the expectoration.

The tubercular patient is not dangerous to others if this expectorated matter is properly destroyed.

Tuberculous discharges should be received in a receptacle such that the matter can be burned, or otherwise destroyed, and the receptacle boiled.

Expectoration should never be swallowed.

When coughing or sneezing, patients should cover their mouths with their hands or handkerchief.

Several forms of spit cups are on the market, some of pasteboard which can be burned, others of metal which can be boiled, others of metal form holding a papier mache cup which can be replaced at a nominal expense. Whatever form used should be covered to prevent flies from coming in contact with the sputum.

Disinfectant solutions may be used; carbolic acid solution 5-100; concentrated lye one tablespoonful to a glass of water; formalin 5-100.

Expectoration into cloths which are carried in the pocket or placed about the bedding is a dangerous practice. The danger is of further infection of the patient and the infection of others.

If circumstances are such that cloths must be used temporarily, they should be burned, never washed. After the sputum has become dry they are dangerous to persons who handle them.

Expectoration should be destroyed before it dries.

Expectoration should be kept away from flies.

Never expectorate in dark corners. Tuberculosis patients should always wash their teeth, mouth and hands before meals and frequently during the day.

Apartments used by consumptives should not contain carpets, unnecessary upholstery, curtains or tapestry. Apartments which have been used by tubercular patients should be thoroughly disinfected under the direction of the health authorities or a competent physician.

Cases of tuberculosis should be reported to the proper health authorities, not for the purpose of quarantine, but for general instruction.

Those afflicted with tuberculosis should not play or associate intimately with children.

Tuberculosis is not apt to attack a person if otherwise in good health.

Have your living apartments as much exposed to direct sunlight as possible, and your sleeping apartments thoroughly ventilated.

Breathe through the nose. Children who breathe through the mouth have some form of nasal obstruction.

This is dangerous to their health and interferes with their mental development.

Avoid dissipation and excess.

Remember that tuberculosis is curable, if the case comes early under the guidance of an intelligent physician.

VITAL RECORDS

Ophelia G. Slayback
Ophelia Griffin was born near Adrian, Michigan, April 5, 1852, and was married in the town of Rest, Wilson county, Kansas, to James Harvey Slayback, March 5, 1884. To this union two children were born, Lettie Pearl, who died in infancy, and Lester Wilson Slayback, who mourns the loss of a devoted and loving mother. Mrs. Slayback is survived also by her husband, three brothers, John Griffin of Scottsville, Michigan, Joel Griffin of Clayton, Illinois, and Harvey Griffin of Guthrie, Oklahoma, and one sister, Mrs. Charles Howes, of Tipton, Michigan, and a son by a former marriage, Mahlon Beckey, of Kirby, Oregon.

For the past sixteen years the family have resided in Orange county, part of the time near Smeltzer and the last seven years in Santa Ana.

Mrs. Slayback's health had been failing for several months. She was a patient sufferer, but everything that medical skill and loving relatives and friends could do for her were of no avail, and she passed to her blessed rest Sunday morning, at the age of 56 years, surrounded by the immediate members of her family.

Her friends had planned long ago to give her a surprise on her twenty-fifth, or silver wedding anniversary, which would have occurred on March 5 (yesterday).

Mrs. Slayback was a member of the Fraternal Brotherhood and the Woman's Relief Corps, having joined the latter seven years ago. She was one of the greatest workers in the corps, always willing and ready to help others, one who will be sadly missed. She was a loving wife and devoted mother, a good neighbor and a generous-hearted woman, whose friends were legion, as was testified by the large funeral and banks of flowers and floral emblems which silently told of the love and esteem of the departed sister and friend.

Rev. Garnett of the First Baptist church, conducted an impressive ceremony, closing his remarks with Whit-tier's beautiful poem:
"I know not where His islands lift
Their fringed palms in air;
I only know I cannot drift
Beyond His love and care.

And so beside the silent sea
I wait the muffled oar;
I know no harm can come to me
On ocean or on shore."

Miss Lulu Hall touchingly rendered "Jesus, Savior, Pilot Me," and "The Homeland." The Woman's Relief Corps and Fraternal Brotherhood both officiated during the services of the funeral.

The sympathy of a wide circle of friends goes out to the bereaved husband and son. "Earth has no sorrow that heaven cannot heal." Our Heavenly Father knows His unspeakable love will sustain and comfort until the glorious morning when we shall meet to part no more forever.

"Then let not our tears in sorrow flow,

When God recalls His own,
And bids them leave a world of woe
For an immortal crown."

SENATOR BEGINS STUDY OF HEBREW LANGUAGE

It seems that Senator W. A. Clark of Montana, has not relinquished the studious habits he acquired during his early life, when he was a school teacher in Pennsylvania. He recently engaged a tutor to instruct him in Hebrew, and it is said that he is making astonishing progress in that language, as the lure of gold has never carried him far away from his early inclination to improve himself. He hired a tutor to teach him Latin when he was advanced in years, and the odes of Horace are his chief delight. He took up French when he had a bowing acquaintance with Latin, and it is said of him that he can read and write French as fluently as Emperor William of Germany, who is the only foreigner, the Parisians say, whose accent is above reproach.

The senator also took singing lessons and at a great banquet in Salt Lake City sang "The Star Spangled Banner." His performance was declared to be unrivaled and considerable discussion followed as to the quality of his voice. A famous engineer, now a resident of this city, said that it was a tenor, while a well known railroadman, who is also here, declared it was a basso profundo.

When the senator was asked to settle the vexed question his modest reply was:

"Well, I am not sure what you call it. But I think it is just an ordinary voice."—San Francisco Call.

MISS O'DONNELL, 115 W. 4th

THE KANSAS TIN SHOP

No. 3

Among the many and devious ways by which the merchants of Santa Ana (as well as other localities) seek to attract new customers we find the most common is to select one or more articles and sell them at or below cost and thus hope to attract the buyer.

When this has prevailed for a time and all are "in it," no one is the gainer except a few fortunate (or otherwise) buyers and they are not much ahead.

We asked the grocer if he found it profitable to send out "solicitors" who would go from house to house and try to get orders for coffee, sugar and cheese and then send another man to deliver the goods. The general reply was "it don't pay."

Then we asked the implement and wagon dealers if they found it paid to send out solicitors for orders and the answer was: Whether it pays or not we have to do it because the Los Angeles houses send men into this territory and we are compelled to meet them.

Then again, we can occasionally sell the rancher a harrow or a cultivator that he don't want and has no need of, while he would not come to the store for it. In that way we sell more goods. See?

Of course the farmer "pays the freight." Other lines of business are boosted by "going for it," of which we will have something to say next time.

wood. This was the sixth of a series of fine musicales being given this winter by Miss Bessie Bartlett and Mrs. Philip Zobel.

Miss Dresser was especially honored on this occasion by having two of her musical compositions sung exquisitely by Miss Bartlett, with the composer accompanying. The numbers were those beautiful songs of Miss Dresser's, "The Night Has a Thousand Eyes," and "The Billows Throw Shells on the Shore," which Santa Ana people have had the pleasure of hearing sung by Mrs. Rafferty. The audience of Thursday afternoon, made up of well known musicians of Los Angeles and other places, most cordially received the compositions and the composer, who was introduced in a charming little talk by Miss Bartlett.

FUNERAL SERVICES OF MISS MABEL SACKMAN

Yesterday afternoon at 2 o'clock occurred the funeral of Miss Maybelle Sackman. The services, at the home of her brother, J. Wm. Sackman, were conducted by the Rev. Cronenberg of the Christian church. They were short, impressive and simple, so in keeping with the beautiful life of the dear girl passed on home. The young ladies of the drill team of the Fraternal Brotherhood acted as pall bearers. Dressed in simple white, they gently carried the flower laden casket to its final resting place. Miss Sackman had served as captain of the drill team for a long time, and took active interest in its work up to about six months ago. The last four months have been spent in Redlands and her death was a shock to many friends here, who were not even aware of her illness.

Miss Sackman was a young woman who had spent her entire life in Santa Ana, and her many acts of self sacrifice and her sunny, lovable disposition will live long in memory with her many friends. Her sorrowing family have the loving sympathy of the entire community in their great loss, and must be consoled that she is "not dead, but only gone before."

Card of Thanks

Words are so inadequate to express our profound gratitude to the very many who so nobly contributed assistance and courage in our bereavement. We wish to thank our dear neighbors, who so greatly alleviated the burdens of our great sorrow, the young ladies who so nobly gave their services, the officers and members of the Fraternal Brotherhood, the employees of the Santa Ana Laundry, and to all kind friends for their support and the very many beautiful floral pieces and tributes of love and respect.

CLAIM WILL BE THAT HORSE WAS SICK ON LEAVING STABLES

When the case of Carl Schultz, charged with abusing a horse comes up a different side of the story of the death of the horse that was given by Carl Schultz will likely be told. The side of the story that has been given the public so far is that the boy was in a hurry to finish a paper route that he might get back in time for a baseball game. The side of the story not told takes the blame off the shoulders of the boy. The defense to be given the jury will be that the horse was a sick horse when he was sent out of the stables, that had he been well there would have been no ill effects of the use given the animal by the boy.

CHILD'S NAME WAS CHANGED BY COURT

Yesterday afternoon the name of Charles Peterson, aged 5, was changed to Royal Anthony White. The child was adopted by Mr. and Mrs. White of Fullerton, and at their request the new name was given the boy, who was turned over to them by a child's home of Berkeley.

OLD CLOTHING MADE NEW AT THE SANTA ANA DYE WORKS

—We guarantee to take old clothing and make it like new, providing it is good material and not cheap, shoddy stuff. We do not care how badly soiled or stained it is. The reason why we are successful is, first, because we have had over 14 years in this line; second, because we do not misrepresent; third, our charges are lowest and work as good as the very best; fourth, we do not set up a yell that we are the Best Cleaning House (there are others); fifth, because we do not carry a hammer and try to knock our worthy competitor. He needs the money. Our business is steadily increasing and we have recommendations by the score. Now we do not do any impossibilities; but we do the work, and are getting busy every day. Three wagons are at your service; use the telephone or call. Try our club rates, \$2.00 per month; 1 suit each week, and a skirt free for the ladies each month. Kid gloves cleaned free with any kind of order. Ladies, get busy on this proposition. We have the only genuine Steam Cleaner. But two in Southern California. Our Dry Cleaning is perfection; our Steam Cleaning, better; our Dyeing, simply superb. Both phones, Main 137, Home 120. 219 W. Fourth.

DIGESTS ALL THE FOOD IN THE STOMACH

Give Your Stomach a Good Eat Without Fear of Indigestion or Misery

—If your meals don't tempt you, or you feel bloated after eating and you believe it is the food which fills you; if what little you eat lies like a lump of lead in your stomach; if there is difficulty in breathing after eating, eructations of sour food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something for a sour stomach and indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas which sours your entire meal—interferes with digestion and causes so many sufferers of Dyspepsia, sick headache, nauseous breath, and stomach trouble of all kinds; Putting the intestines and digestive canal, causing such misery as Biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here, and will convince any stomach sufferer five minutes after taking one triangle that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble catarrh of the stomach, nervousness or gastritis, or by and other name—always remember that a certain cure is waiting at your pharmacist a time you decide to begin its use.

Pape's Diapepsin will purify the sourest and most acid stomach within five minutes, and digest promptly, without any fuss or discomfort all of any kind of food you could eat.

LOS ANGELES PRODUCE MARKET

New things are beginning to arrive on the local market with such regularity as to assure more produce to handle than has been expected in the next three or four weeks. Among the most welcome arrivals, although still very small, are the new Early Rose seed potatoes. About ten boxes shipped in from Burnett, near Long Beach, were shown on the market and had almost immediate sale among the buyers for the large hotels. They brought 8 cents a pound. Raspberries, grown at Montebello and Fruitland, just outside the city's gates, have appeared on the market two mornings in succession and the outlook for increased arrivals is good. The fine red berries are bringing 40 cents a box, sufficient to keep them out of the general public demand for a few days at least.

Firmness was not as apparent as on the day previous in the egg market. Arrivals were 600 cases, and buying was only fair, causing some weakness in prices. There were a few reports of eggs selling at 22 cents on candied stock, but generally prices were unaltered.

Butter arrivals were 18,066 pounds. There was a fair call for creamery extras and cooking butter. No change recorded in prices.

Cheese was active on the street. Oregon full cream sold well and northern cheese of the same variety was in demand. Eastern cheese is moving fairly well. Prices here on eastern stock are very high. Through the cheese producing sections in the middle West the commodity is quoted as much as 5 cents a pound lower than here. Arrivals were 6791 pounds.

Potato arrivals were very small, and helped the present prices in their firmness. Only two cars came in. Most dealers look on this as opportunity, since it will afford several of them to get rid of the cars that have been standing on the track. Onion

arrivals were more than two cars and sold well on the street.

Sweet potatoes were unaltered, with arrivals totaling only about half a car. Bean receipts were exceedingly small and sales were light.

Two of the listed vegetables were forced down rapidly yesterday on account of the heavy arrivals. Asparagus poured in from the north as well as from the Imperial Valley and prices dropped from 18 cents to 8 cents. The selling yesterday morning was done within a range from 8 to 12 cents and indications pointed to lower figures still. Artichokes were affected in a like manner, but the cut was not quite as deep. Fancy artichokes sold as low as 50 cents a dozen. They are still all being shipped in from San Francisco. Lettuce was not very firm, selling anywhere from 75 to 1.50 a crate. Cabbage of good appearance and solid head sold for 1.75. Celery was up a trifle and some of the best sold a little higher than 3.00 a crate.

Apples and citrus fruits were all unchanged in value. There was a fair call for well-colored apples. Roman Beauties, Winesaps and Arkansas Blacks. Pippins, Bells and the light fruit moved a little slowly. Mountain bellefours are coming from storage and sell well at 1.25 a box.

The demand for fish was excellent and they were well cleaned up. Silver smelt, sardines and sand dabs were the small varieties obtainable, while there was a wide latitude in choosing among the large fish. Mackerel were among the more choice receipts. Salmon from the north were in very good demand.

WANT HOWARD AT SAWTELLE

Another Victim of Bad Check Man From Tustin Swears to a Complaint

Another complaint has been sworn to charging Frank M. Howard, formerly of Tustin, with passing a worthless check. The complaint was sworn to at Santa Monica by E. W. Baker of Sawtelle who cashed a check for Howard for \$35, drawn on the First National Bank of Santa Ana, where Howard had no funds.

Constable Jackson, who holds a warrant for Howard issued by Justice of the Peace Smithwick of Santa Ana, has been unable to get any trace of Howard. It is thought at Tustin that Howard has gone to Mexico. He

was in Mexico a year before he came here.

CLASS NUMERALS DECORATE WALKS

School Superintendent and Constable Are Making Investigation

There is a spanking hidden away for some high school seniors. At least it is an easy conclusion that seniors are responsible. The figures and letter "09B" this morning appear on all the sidewalks around the high school and on the high school grounds, as well as on sheds just north of the high school. City Superintendent of Schools Cranstom and Constable Jackson are making an investigation. The senior class went on a picnic yesterday, and the paint episode occurred last night, presumably as a finale to the celebration on the part of some of the boys.
